

## **Demo eSign Document**

1. You can choose from various available flows for integration to suit your unique needs.
2. You can use our Documentation Gateway APIs along with our Web, Android and iOS SDKs to easily integrate our gateway within your own application.
3. You can add your own organizational Logo, which will replace the Leegality Logo.
4. The final signed document is mailed to the user as well as to you and saved in your Leegality Account.
5. Any number of users can eSign the same document.
6. An automated Audit Trail is also generated for every document eSigned through us.
7. The user can eSign through Aadhaar OTP or Biometric Method.
8. A digital mark is placed along with the digital signature at the bottom left of the document indicating the details of the signature. The digital signature can be opened via the Signature Panel in Adobe Acrobat Reader.

Please contact us at [contact@leegality.com](mailto:contact@leegality.com) or call us at +91-9560440028 anytime for more details.
